**Want help preparing for your advising appointment?**

**Looking for advice on academic planning from other students?**

## **MEET WITH A PEER ADVISOR!**

### ❖ **Who are Peer Advisors?**

*Peer Advisors are current students who can talk with you about your academic plan, course options, and registration process. They are trained to answer your academic questions in confidence.*

### ❖ **What do they do?**

*Peer Advisors can help you prepare for your official advising appointment or organize the information you've already received from your faculty advisor. They can help you select classes, make a 2 or 4 year plan, or just discuss your academic goals. But, don't forget that they don't take the place of meeting with your faculty advisor.*
