As of Fall 2008, full-time UNC Asheville students are required to have health insurance through a program sponsored by the university. A student can be exempt from this policy if there is proof that the student has health insurance from another vender.

In an effort to help students fund this additional expense, the Office of Financial Aid can include the cost of the insurance premium into the student's budget if the student is required to participate in this program. If you would like to have this cost added to your budget, complete this form and return it to the Office of Financial Aid.

By signing this form, you are agreeing to the following terms:

- You are required to participate in the University's mandatory health insurance program.
- You would like the yearly premium of \$611.00 to be added to your budget.
- You understand that your Financial Aid will not automatically result in additional aid if your budget is increased. The budget increase will only help eligibility for additional grant and loan money when applicable.
- If you do receive additional money as a result of your budget being increased and do not enroll in the insurance program, your aid can be cancelled at any time which may result in a balance owed to the University.

**Your signature below affirms that you understand the terms and conditions above and are requested the UNC Asheville Office of Financial Aid to increase your budget for the current academic year.**
