

## Developing a 4-Year Plan

Academic planning requires much more than developing a course schedule each semester – it requires you to look ahead one, two, or even three years and assess how decisions you make now could affect you in the future. You can use this sheet to help you be proactive and plan ahead. On the other side of this page is a sample 4-year plan, which will help you visualize what a 4-year plan looks like. **\*\*\*Please note, this sheet is not intended to be used in lieu of keeping in regular contact with your faculty advisor.\*\*\***
